New: 1 · Duplicate / possible reversal: 0 · Errors: 0
Duplicates and possible reversals are unselected. Matching allows one calendar day either side with exact minor-unit amount and normalized payee. Confirm manually; nothing is deleted automatically. Transfers and refunds are not inferred. Edit the row to create a linked transfer or refund, or skip it and record it manually. Positive liability credits require explicit classification.

2 · CSV expense
2026-11-01 · Expense · -100 VND
